

# COMFORT THE EFFICIENT WAY

Fujitsu ductless mini-split air conditioners and heat pumps offer year-round whole-home comfort in most climates. As much as half of the energy used in your home goes to heating and cooling. So making smart decisions about your home's heating and air conditioning system can have a big effect on your utility bills – and your comfort.

- **No Ductwork Means No Duct Loss!** Halcyon systems lose less than 5% cooling vs. up to 40% for traditional forced-air systems.
- **High SEER Ratings** Increased ratings up to 33 SEER mean lower utility bills.
- **Individual Zoning** Allows you to heat or cool the areas you want, and not the areas that are unoccupied.
- **Rebates from Utility Companies** To encourage customers to buy energy efficient products, many local utility companies offer rebates for the purchase of ductless mini-split systems.
